

# Curriculum Vitae

**Name:** Schahram DUSTDAR **Full CV:** <http://dsg.tuwien.ac.at/Staff/sd>

**Date and place of birth:** 26. September 1966, Linz, Austria

## Academic Degrees

2003: Venia Docendi (Habilitation), Computer Science, Vienna University of Technology  
1992: Doctorate degree, Business Informatics, Johannes Kepler University Linz  
1990: Master degree, Business Informatics, Johannes Kepler University Linz

## Positions Held

- 2005/7 - : Full Professor of Computer Science at Vienna University of Technology  
2004 - 2010: Honorary Full Professor of Information Systems, University of Groningen, The Netherlands  
2003 - 2005: Associate Professor, Vienna University of Technology  
2001 - 2003: Assistant Professor, Vienna University of Technology  
1999 - 2007: Co-Founder and Chief Scientist at Caramba Labs Software AG  
1991 - 1999: Head of the Informatics Data Center, University of Art & Industrial Design, Linz, Austria  
1987- 1991: Research Assistant, Institut für Wirtschaftsinformatik, University of Linz, Austria

## Short term and invited Positions

- 2019+: Honorary Visiting Professor UPF, Barcelona, Spain  
2019/20: Visiting Professor, University of Southern California, Center for Cyber-Physical Systems and the Internet of Things USC Viterbi School of Engineering  
2016/7: Visiting Professor University of California at Berkeley, Industrial Cyber-Physical Systems Center (with Prof. Edward Lee)  
2016/12: Visiting Professor University of Sevilla, Spain (with Prof. Antonio Ruiz-Cortez)  
1998: Visiting senior research scientist, NTT Multimedia Research Lab, Palo Alto, USA  
1993 – 1994: Post-Doctoral Research Fellow, London School of Economics, Information Systems Department

## CV Scientific profile highlight

Prof. Dustdar has an international reputation as a leader in computer science in the field of Internet Technologies, Distributed Systems, and Internet of Things, in particular. He has

published extensively with his work on (a) Elastic Software Systems as well as his work on (b) Internet of Things combined with Cloud Computing. The impact of this work is clear within both the scientific community and also with industry. For example, Pacific Controls has invested over €3.5M in Prof. Dustdar's work, with which he set up a Research Lab focusing on novel technologies for Internet of Things and Smart Cities.

He has also a track record in start-ups, having co-founded one company (Caramba Labs Software AG) and sold it before joining the university. Scientifically, Prof. Dustdar's research has led to multiple best paper awards, most recently at IEEE ICCI\*CC 2018 in Cognitive Computing, IEEE SCC 2016, and ICSOC 2014, both leading conferences on service-oriented computing. He has been ranked #5 author (h-index) worldwide in the domain of World Wide Web research (last 10 years) in the Microsoft Academic search. Further indications of his significant, leading research influence are his **h-Index of 87**, i10-index of 504, **total citations of 43,500** (source: Google Scholar), and cumulative downloads from ACM of more than 40,000, with an average download per article of ~516.

More recently, Dustdar is listed on global rank ~389 of the Top 1000 international scientists in Computer Science [<http://research.com/>]. Dustdar became listed in the listing of the **Top 5 Computer Scientists** in the area of Cloud Computing for "individual productivity" and thus secured a rank number 2 for the TU Wien for the Top 15 cited affiliations globally [see L. Heilig and S. Voß (2014), A Scientometric Analysis of Cloud Computing Literature, IEEE Transactions on Cloud Computing, Vol 1, 1, 2014.]. **Top 3 in Europe on Distributed Systems and Top 30 globally** in Distributed Systems (Google Scholar). Prof. Dustdar has extensive leadership experience, having consistently led a research group of 35 researchers over the past 10 years in his DSG. In particular, his leadership in establishing a research lab funded by an industrial partner, Pacific Controls, is highly relevant to TU Vienna's positioning as an innovative leader in the Engineering domain. In this lab, he successfully married the requirements for scientific excellence with applied industry needs by establishing a research unit working on scientific foundations as well as on software prototypes for Smart Cities. Prof. Dustdar's leadership status is also manifest in his frequent invitations as a Keynote speaker (averaging one invited talk per month in the last 5 years) at conferences in academia as well as industry. In the last 6 years alone, Prof. Dustdar has also been involved in **many European and National research projects with a total value in excess of €90M, including ca. €25M funding for the TU Vienna**.

In summary, under Prof. Dustdar's leadership, the Distributed Systems Group (DSG) at the TU Vienna has developed an international reputation as one of the top groups in its field, hosting some 20 international visitors for collaborations between 3 weeks and 6 months over the last 5 years, and focusing significantly on the technological foundations for innovative Internet technologies and Distributed Systems, in general. Prof. Dustdar has had over 25 years of outstanding success as a researcher, academic, and entrepreneurial research leader. He has been a singularly active advocate for his discipline, having successfully executed dozens of editorial and organizational roles for leading journals and conferences. Dustdar successfully supervised and lead **42 PhD students to completion**. He is internationally recognized for his fundamental yet wide-ranging research and his vision, drive, and leadership has had a strong impact on the ranking and visibility of TU Vienna, and the faculty of Informatics, in particular.

### **Awards, Distinctions, Academy Memberships, Industrial Innovation (selection)**

- ACM Distinguished Speaker Award, (2021)
- IEEE TCI Distinguished Service Award (2021)
- IEEE TCSC Award for Excellence in Scalable Computing (2019).
- IEEE TCSVC Outstanding Leadership Award, for Outstanding Leadership in Services Computing, 2018
- Best Paper Award: Riveni M., Dustdar S. (2018). Trust and Interaction-type considerations in Multi-objective Team Compositions for Human-computation. 17th IEEE International Conference Series on Cognitive Informatics and Cognitive Computing (ICCI\*CC 2018), July 16-18, 2018, Berkeley, CA, USA
- Elected Chair of the Informatics Section at the Academia Europaea: The Academy of Europe, since 2016
- IEEE Fellow (2016). For contributions to Elastic Computing
- Member of the Academia Europaea: The Academy of Europe, (2013)
- Best paper Award: An Elasticity-aware Governance Platform for Cloud Service Delivery.\_Mueller C., Truong H.-L., Fernandez P., Copil G., Ruiz-Cortes A., Dustdar S. (2016). 13th IEEE International Conference on Services Computing (SCC 2016), June 27 - July 2, 2016, San Francisco
- Best Paper Award: ADVISE - a Framework for Evaluating Cloud Service Elasticity Behavior, Copil G., Trihinas D., Truong H.-L., Moldovan D., Pallis G., Dustdar S., Dikaiakos M. , 12th International Conference on Service-Oriented Computing (ICSO 2014), France, 2014
- Emerald Outstanding Paper Award Winner for the journal paper: Truong H. L., Dustdar S. (2012). A Survey on Cloud-based Sustainability Governance Systems. Published in International Journal of Web Information Systems, 2013
- Recipient of the IBM Faculty Award 2012
- Best Paper Award: A Novel Approach to Modeling Context-Aware and Social Collaboration Processes. Liptchinsky V., Khazankin R., Truong H.L., Dustdar S., 24th International Conference on Advanced Information Systems Engineering (CAiSE 2012), Poland, 2012
- Best Paper Award: Programming Hybrid Services in the Cloud. Truong H.L, Dustdar S., Bhattacharya K., 10th International Conference on Service-Oriented Computing (ICSO 2012), China, 2012
- Best Paper Award - Runner-Up: Who Do You Call? Problem Resolution through Social Compute Units. Sengupta B., Jain A., Bhattacharya K., Truong H.L., Dustdar S., 10th International Conference on Service-Oriented Computing (ICSO 2012), China, 2012
- Best Paper Award: Identifying Important Action Primitives for High Level Activity Recognition. A. Manzoor, C. Villalonga, A. Calatroni, H. Truong, D. Roggen, S. Dustdar, G. Tröster, 5th European Conference on Smart Sensing and Context 2010, Germany, 2010
- ACM Distinguished Scientist Award, 2009

### **Editorial Responsibilities (selection)**

- ACM Transactions on Internet of Things (since 2018) -- Founding Co-Editor in Chief
- Computing (since 2009) Springer (SCI ranked journal) – Editor in Chief
- ACM Computing Surveys (since April 2020)- Associate Editor
- ACM Transactions on Internet Technology (2012) – Associate Editor
- ACM Transactions on the Web (2008) – Associate Editor
- IEEE Computing (since 2015) – Associate Editor for Cloud Computing
- IEEE Transactions on Services Computing (since 2008) - Associate Editor
- IEEE Transactions on Cloud Computing (since 2017) – Associate Editor

- IEEE Internet Computing – Editorial Board & Department Editor for Web-scale Workflow (since 2010)
- Service oriented Computing and Applications, Springer (since 2006) - Associate editor
